

## **Jessica Simcoe**

### **BookSmiles Warehouse Associate**

Jessica has 10 years of retail experience at a local pet store. She spent that time educating pet parents on healthier options for their animals to fit their needs. She is an avid animal lover, having been involved in animal rescue for 10 years and having 4 dogs of her own.

She has also been an advocate for the neurodiverse. As a teen herself she was asked to speak/mentor pre-teen girls struggling with social issues due to ADHD through a program called ADDaGirls at the ADDvantages Learning Center. During this time, she was also asked to speak to an audience of parents, teachers, and administrators who were seeking to understand how ADHD affects teens emotionally, psychologically and socially, as part of a panel of high school students with ADHD.

Jessica is excited to join the BookSmiles team. She has been an avid reader since she was old enough to hold a book and has been a voracious reader ever since. Her other passions include playing soccer, music and spending time with family at the shore.
